

FATIMA KLYE M. SIERRA

General Trias, Cavite, Philippines. | fatimaklyesierra081005@gmail.com | 0962-8658-502

Detail-oriented Information Technology student specializing in Mobile and Web Application Development. Experienced in building responsive applications, integrating databases and APIs, testing features, and fixing technical issues to improve system functionality and user experience. Seeking an internship where I can apply my skills, contribute to real projects, and continue growing professionally.

PROJECTS

IGNIS SAFE — MOBILE FIRE SAFETY LEARNING AND 3D SIMULATION SYSTEM

2025 - Present

Systems Analyst, Mobile & Web Developer | National University – Dasmariñas

- Developed mobile and web features using Flutter, React.js, and Supabase for fire-safety learning, assessments, tracking, and administration.
- Analyzed BFP requirements and translated them into system workflows, database structures, and functional features.
- Tested and debugged system features to improve reliability, usability, and overall performance.

ITSO ID TRACKER

2024 - 2025

Web Developer | National University – Dasmariñas

- Developed an ID processing and tracking system using Next.js, TypeScript, and Supabase.
- Implemented status monitoring and record management, simplifying ID issuance and tracking workflows.
- Tested and refined system functions and interfaces, improving usability and data accuracy.

BEAUTIVERSE

2025 - 2026

Web Developer | National University – Dasmariñas

- Developed a digital beauty storefront and community platform for products, services, and user content.
- Designed responsive interfaces and user flows, creating a clearer and more accessible browsing experience.
- Integrated application features and data management, supporting reliable interaction across the platform.

SKILLS

- Proficient in Flutter, Dart, HTML, CSS, JavaScript, React, and Next.js.
- Experienced in Supabase, PostgreSQL, database integration, authentication, and API implementation.
- Skilled in Figma, responsive UI/UX design, prototyping, software testing, and debugging.
- Knowledgeable in system analysis, requirements gathering, Git/GitHub, and technical documentation.

CERTIFICATIONS

- Information Technology Specialist – HTML and CSS | Certiport / Pearson | 2026
- Information Technology Specialist – Databases | Certiport / Pearson | 2025
- TECH4ALL: UI/UX Design | JPCS – NU Dasmariñas | 2026
- Modern Web + AI (UI/UX) | NU Dasmariñas Computer Society | 2025
- Building Powerful APIs with Node.js, Prisma and MySQL | Dev Squads | 2024
- Basic JavaScript Coding Training | Armada Logics | 2024
- Beyond Spreadsheets: Visualizing Data's Story Through Analytics
- Cybersecurity Orientation – DICT Region IV-A
- Software Development 101: A Beginner's Guide
- IOTVERSE: Internet of Things and Connectivity

EDUCATION

National University – Dasmariñas
Bachelor of Science in Information Technology, Major in Mobile and Web Applications

2023 - Present
Dasmariñas City, Cavite
